

# Pedro J Gomez

## Sr Frontend Developer.

I began my career as a developer over 10 years ago. Throughout this time, I have learned that talent alone is not enough; perseverance, discipline, and continuous learning are key. Currently, I hold the position of Senior Frontend Developer. Although at times I doubt my ability to fulfill this role, I remind myself of the attributes I mentioned. In addition to my professional career, I am a friend, husband, and father.

These roles in my life provide daily motivation for me to work hard and constantly improve my skills.
